

INVESTMENT OBJECTIVE

The Visio FR Unconstrained Fixed Interest Fund is a domestic fixed interest portfolio which seeks to provide investors with exposure to the fixed interest market and aims to offer maximum returns by actively extracting value from various sources within the fixed interest universe. The objective of the portfolio is to maximize both income and capital over a long-term investment horizon.

INVESTMENT POLICY

The portfolio uses strategic asset allocation, aggressive duration (ranging between the duration typical of a money market fund and the longest maturity South African government bond), yield curve positioning, switches, stock selection as well as derivative and other yield enhancement strategies, including exposure to foreign currency to maximize returns. Given that the portfolio aims to maximize total return (which includes capital) it is expected to be more volatile than a traditional income fund with more frequent negative monthly returns. The Manager shall seek to achieve the objective over time through active management of a portfolio of predominantly local assets which will consist of a combination of interest-bearing securities including bonds, loan stock, debentures, fixed deposits, money market instruments and cash, listed and unlisted derivatives, listed property, and preference shares as well as any other securities. The portfolio may also invest in a participatory interest or any form of participation in portfolios of collective investment schemes. The portfolio will be managed in accordance with regulations governing pension funds and CISC. The portfolio may from time to time invest in listed and unlisted financial instruments.

INFORMATION AND DISCLOSURES

Risks

Certain investments - including those involving futures, options, equity swaps, and other derivatives may give rise to substantial risk and might not be suitable for all investors. Where foreign securities are included in the portfolio there may be additional risks such as potential constraints on liquidity and repatriation of funds, macroeconomic risk, political risk, foreign exchange risk, tax risk, settlement risk as well as potential limitations on the availability of market information.

* Total Expense Ratio (TER)

Please note: A higher TER ratio does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER cannot be regarded as an indication of future TER's. Transaction Costs are a necessary cost in administering the Fund and impacts Fund returns. It should not be considered in isolation as returns may be impacted by many other factors over time including market returns, the type of Fund, the investment decisions of the investment manager and the TER. The prior year ("PY") TER and Transaction cost calculations are based upon the portfolio's direct costs for the financial year ended 31 December 2025, whilst the underlying portfolios' ratio and cost calculations are based upon their most recent published figures, being 31 March 2026.

Effective Annual Cost:

Fundrock Collective Investments adopted the ASISA Standard on Effective Annual Cost ("EAC"). The EAC measure allows you to compare charges on your investments as well as their impact on your investment returns prior to investing. For further information regarding the ASISA Standard on Effective Annual Cost and access to the EAC calculator please visit our website at www.fundrock.co.za. FR calculates the EAC as per the ASISA standard for a period of 3 years up till the most recent TER reporting period.

#Monthly Fixed Admin Fee: From 1 June 2026, the monthly minimum administration fee per investment account for investors who do not transact online will be: More than R100 000 – no minimum administration fee; R10 000 to R100 000 – R15 per month (excluding VAT); Less than R10 000 – R25 per month (excluding VAT).
